- Terry Christiansen explains how changes in population, based on census results, require redistricting. In 2000, few changes were made to district boundaries, but this time more change will be necessary to meet district population variance requirements set by CA state law. Serious considerations include neighborhood identities, natural boundaries. Changes in D4, D5 and D6 could affect D3 boundaries.
- Erik Schoennauer is the D3 representative in the process. Deadline for redistricting is May 31<sup>st</sup>, council must approve proposal. Some considerations for proposed district line changes include major streets, business districts and school district lines.

- Meeting dates will be posted on the City Clerk's page of the City website. It is important to participate, contact Erik with suggestions and concerns. Ph# 408-947-7774 or [es@stanfordalumni.org](mailto:es@stanfordalumni.org)
